

**Question 1:**

Please confirm the WJB courts are covered by the RFI?

- a. Supreme court – yes.
- b. District courts – yes.
- c. Circuit courts– yes.
- d. Chancery courts – yes.
- e. Circuit court magistrates – yes, these are included with c. Circuit courts.
- f. Municipal courts – no.

**Question 2:**

Please provide the number of judges related to each court type. There are five (5) justices, twenty-seven (27) district court judges, one (1) chancery court judge, twenty-four (24) circuit court judges, and (4) circuit court magistrates.

**Question 3:**

Does the WJB investigation of Electronic Evidence Management Systems include solutions that can manage both digital and physical evidence? Yes.

**Question 4:**

How do courts currently store data?

- a. On Premise
- b. Cloud Storage? If cloud storage, who is the vendor?

The WJB assumes the term “data” in this instance means the amount of digital evidence. Currently, the WJB does not store videos, photos, or other forms of digital evidence.

**Question 5:**

Will there be any data to convert at implementation? No, the WJB envisions the services to be offered from a “point in time forward.”

**Question 6:**

Does the WJB have an estimated data consumption in tera bytes year? The WJB assumes the term “data” in this instance means the amount of digital evidence. Currently, the WJB does not store videos, photos, or other forms of digital evidence, and therefore cannot provide an estimation of data consumption.

**Question 7:**

Please confirm there are two Case Management Systems in place currently. District, chancery & circuit courts have implemented Full Court Enterprise CMS. Supreme Court has implemented Appellate C-Track as their CMS? [This is correct.](#)

**Question 8:**

Does the WJB require two-way exchange of digital evidence between the digital evidence management solution selected by the WJB and the current case management systems? [The WJB does not anticipate this as a requirement; however, it is open to exploring what such an integration could entail.](#)

**Question 9:**

Will there be a requirement to build API's to record management systems (RMS) at agencies outside of the WJB such as law enforcement or Office of the Attorney General? If so, please provide the RMS requiring an API. [No.](#)

**Question 10:**

What term is the Wyoming AOC looking for 3 or 5 years? [The WJB is open to either.](#)

**Question 11:**

Can the WJB select and contract with a vendor from the RFI & forgo the RFP process? [The WJB anticipates that it will pursue the RFP process following this RFI process.](#)

**Question 12:**

Do WJB courts conduct remote hearings? [Yes.](#)

**Question 13:**

Can digital exhibits be submitted to the court via remote hearings? [The WJB currently has no ability to ingest digital exhibits during remote hearings, other than through email or other digital means. Submission of exhibits during a remote hearing is not prohibited.](#)

**Question 14:**

How many physical locations will the service be implemented at? [The WJB anticipates the service will be implemented in all physical court locations, which includes 73 courtrooms throughout the state.](#)
