

Question 1:

In the meantime, would it be possible to confirm the anticipated user count for the proposed intranet? Based on the staffing figures included in the RFI, I am estimating approximately 340 users. However, it would be very helpful if you could confirm whether that is the expected user count, or if there are additional users that should be considered. The current figure is accurate for internal users. If we were to extend our reach to external parties, such as district court clerks, we might anticipate an additional 100 to 150 users, though this estimation is not definitive.
