

Question 1:

Although this project is currently only in the RFI stage, I was curious if there was an estimated project value for if this project does move past the RFI stage? Additionally, is there an estimated contract duration for a potential contract that would be awarded should this project move past the RFI stage? [Currently, there is no estimated project value. The Wyoming Judicial Branch is open to various contract lengths should it decide to move forward to the RFP and contracting process.](#)
